## DETAILED ACTION

### *Claim Rejections - 35 USC § 101*

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 4 –6 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 4-6 direct to information resided on a medium. Since the information does not provide any functional relationship to the medium accessing the information or controlling the medium, or impart to any software and hardware structural components to provide certain function that is processed by a computer, the information do not make them statutory. See MPEP 2100. It is noted that in the body of claims there is no operative means or circuit recited used for controlling the information to provide certain function. Therefore the claimed information is non functional information .

### ***Conclusion***

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any
